- **NEU PAY CAMPAIGN**

The government's decision to freeze teachers' pay for 2021 means that teachers have lost 17% in real terms pay since 2010.

The NEU is launching a major campaign to address this and will be surveying members starting on January 14th.

The success of the survey depends on us getting a huge response from members.

This briefing will go through some key facts about pay and the arguments behind the Union's call for an 8% increase.
- **Covid safety**
- **Tackling workload**
- **Prioritisation of Motions for NEU Conference (see separate booklet)**
